Professional Summary

Data Analyst fresher with hands-on experience collecting, cleaning, and analyzing large datasets to identify trends, patterns, and correlations. Proficient in SQL, Excel, Python, Power BI, and Tableau for data preprocessing, transformation, and dashboard/report visualization. Skilled in applying statistical methods and machine learning basics to solve business problems, and communicating actionable insights clearly to stakeholders while ensuring data integrity.

Technical Skills

Reporting & Analysis: Excel, SQL, Power BI, Tableau, Data Visualization

Programming: Python, SQL

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Data Handling: Data Collection, Cleaning & Validation, Preprocessing & Transformation, Statistical Methods

Platforms & Tools: MySQL, Snowflake, Cloudera, Git, GitHub, Jupyter Notebook, VS Code, PyCharm, Anaconda, Flask, Django

Core Strengths: Machine Learning, Data Analysis, Attention to Detail, Internal Communication, Team Collaboration, Working Under Pressure

Projects

Customer Behavior Data Analysis [\[GitHub Link\]](#) May 2026

- Performed end-to-end customer behavior analysis using Python, SQL, and Power BI to generate business insights.
- Conducted data cleaning, exploratory data analysis, SQL querying, and built interactive dashboards for sales and customer trend analysis.

End-to-End Data Analysis Projects [\[GitHub Link\]](#) Jan 2026

- Built multiple real-world data analysis projects using SQL, Python, Excel, and Power BI.
- Worked on data cleaning, visualization, dashboard creation, and business insight generation across different datasets.

Customer Churn Data Analysis [\[GitHub Link\]](#) Oct 2025

- Analyzed customer churn data to identify key factors influencing churn using Pandas and NumPy.
- Created visualizations with Matplotlib and Seaborn to present insights and trends for decision-making using Machine Learning.

Student Placement Prediction App [\[GitHub Link\]](#) Sep 2025

- Built a predictive model using Logistic Regression to forecast student placement outcomes.
- Developed a Flask-based web application for prediction and result visualization.

Internship Experience

Knowx Innovations Pvt Ltd – Data Science Intern Jun 2025 – Jul 2025
Bengaluru, India

- Worked on Weather Forecasting and Zomato Recommendation ML projects, handling model building, evaluation, and deployment with Flask.

Learn and Build – Data Analytics Intern Jul 2024 – Aug 2024
Remote

- Performed analytics on real-world datasets using Python, Excel, and Power BI; created insightful dashboards and statistical summaries.

Education

Jagannath University, Jaipur 2023 – Present
Bachelor of Technology in Computer Science and Engineering Jaipur, Rajasthan
M.L.S.M College, Darbhanga 2021 – 2023
Intermediate (BSEB) – 70.6% Darbhanga, Bihar
Pandit Subansh Lal High School, Sankorth 2019 – 2021
Matriculation (BSEB) – 88.6% Madhubani, Bihar

Certifications

- Data Science Internship – Knowx (Jun–Jul 2025) [\[View Certificate\]](#)
- Data Analytics Internship – Learn and Build (Jul–Aug 2024) [\[View Certificate\]](#)
- Field of Data – Udemy Certificate [\[View Certificate\]](#)
- Python Essentials 1 – Cisco Networking Academy (Jul 2025) [\[View Certificate\]](#)
